

INSTALLATION INSTRUCTIONS POLE MOUNT FIXTURES

RA65, RA81, SABA65 and SADRA81

INSTALLATION INSTRUCTIONS

1. Power must be off during installation and maintenance.
2. Fixtures must be installed by a licensed electrician in accordance with the National Electric Code and any local codes that apply.
3. Remove pole cap from pole.
4. Drill holes as shown in Figure A.
5. Hold fixture to pole and line up the holes.
6. Put nuts into the pole and put on the end of the all threaded rods.
7. Put pole cap back on.

RELAMPING INSTRUCTIONS

1. Unscrew set screw located in the side of the half-sphere area of the fixture.
Section 1 - Rotate the sphere until free
Section 2 - Rotate lens housing until free.
2. Replace lamp.
3. Replace half sphere or lens housing by pressing the half sphere or lens housing against the gasket surface and rotate until the unit is fully engaged.
Replace the set screw fully to ensure that the unit stays in the locked position.
